
Lightroom Mobile Presets Guide

Installation Instructions & Pro Tips for Aesthetic Mobile Photography

Publisher: NomadOS Influencer Operations

Version: 1.0 (Standard Edition)

Preset Overview

This vault contains 5 mobile Lightroom Presets designed to enhance beach, coast, and sunset lighting conditions:

1. Vintage Sun - Adds warm cinematic grain and slight retro glow.
2. Beach Drift - Desaturated ocean blues with subtle sandy highlights.
3. Retro Coast - Nostalgic coastal warm film tones.
4. Golden Morning - Boosts early dawn yellow and amber hues.
5. Sunset Mellow - Rich sunset shadow recoveries with soft sky gradients.

How to Install Mobile Presets (.dng)

- Step 1: Extract the .dng files from this zip and save them to your mobile device camera roll.
- Step 2: Open the Lightroom Mobile App (Free) and tap 'Add Photos'. Import the .dng files.
- Step 3: Select an imported preset photo, tap the three dots in the top right, and choose 'Create Preset'.
- Step 4: Name the preset (e.g., 'Vintage Sun') and save it to your User Presets folder.
- Step 5: Open any of your personal travel photos, navigate to the 'Presets' tab, and apply your new aesthetic filter!
